SUBJECT: Upcoming Complaints Tracking Module Updates

The Complaints Tracking Module (CTM), housed in the Health Plan Management System (HPMS), has been an invaluable system over the last 10 years allowing CMS and plans to manage a variety of beneficiary and provider issues, both securely and efficiently. On November 2, 2018, CMS will provide an update to the CTM that affects all plan users.

- To better aid CMS and plan users with tracking how resolutions are communicated to complainants, there will be a new field on the resolution screen called “Resolution Notification?” that will be a required field upon resolving a complaint.
- Changes have been made to Plan Casework Upload File Record Layout and the Plan Download File Record Layout to reflect the Resolution Notification field (see **Attachment A** and **Attachment B**).

As a reminder, to obtain access to HPMS, you must follow the instructions found at <https://www.cms.gov/Research-Statistics-Data-and-Systems/Computer-Data-and-Systems/HPMS/UserIDProcess.html>. Note that it is important to adhere to all instructions as provided on this page to ensure timely processing of your user ID request.

Once a new user is notified of their HPMS access, an e-mail must be sent to HPMS_Access@cms.hhs.gov to request CTM access. The e-mail’s subject line should read “CTM Access Request” and the message should contain the user ID.

As an additional reminder, a user must change their CMS password every 60 days, and complete their Computer Based Training (CBT) and recertification annually or risk having their user ID revoked and ultimately deleted. When a user ID is deleted, the user must submit a request for a new ID.

For technical assistance with the HPMS CTM, please contact the HPMS Help Desk at either 1-800-220-2028 or hpms@cms.hhs.gov. For general questions about complaint handling and casework operating procedures, please contact your plan's Lead Caseworker and/or Account Manager.

Thank you for your continued work and support in complaints resolution.
