Date: June 12, 2018

Subject: Re-Opening of the 2019 Quality Payment Program Advanced APM Module

This is to announce that the Quality Payment Program (QPP) Advanced APM module, contained in this year's Health Plan Management System (HPMS), will be reopened **until June 22**. The module allows Medicare Health Plans, including Medicare Advantage plans, to request that their payment arrangements receive an Other Payer Advanced APM determination as part of the QPP. The additional time is being allotted to ensure all plans who wish the opportunity to submit forms can participate in the first year of this process. We are currently processing applications that were submitted by the initial deadline.
