Subject: Auto-Assignment of New HPMS EUA Job Code to Existing HPMS Users

As part of the HPMS migration to Amazon Web Services (AWS), CMS has established a new EUA job code for HPMS production website access. At this time, the CMS EUA team is auto-assigning the new HPMS production website job code to all existing HPMS users. There is no action required on your part.

When the migration is complete, there will be one HPMS job code for production website access for all HPMS users. The new job code to be used by individuals requesting access to HPMS is:

HPMS_Prod_AWS

Please direct questions to the HPMS Help Desk at either 1-800-220-2028 or hpms@cms.hhs.gov.
