Subject: 2019 Medicare Part C and Part D Reporting Requirements - Data Validation

All Part C and D sponsors are required to undergo an annual validation of the data they provide as part of the Part C and Part D Reporting Requirements beginning April 1, 2019. In order to ensure the reliability of the data reported, each sponsor must select a data validation reviewer (contractor) to conduct the audit. Selected reviewers must successfully complete training each year prior to commencing any data validation activities. The 2019 Data Validation web-based training is available on the Medicare Learning Network Learning Management System for data validation reviewers.
