SUBJECT: Optional CY 2020 Formulary Enhancement Submission Window

CMS is offering a final CY 2020 formulary submission window that will permit plans to submit formulary enhancements to CMS prior to the start of the 2020 contract year. While Part D Sponsors may enhance their formularies at any time, including prior to the start of the contract year, we are offering this additional window to allow another opportunity for plans to submit formulary changes in order that the Medicare Plan Finder (MPF) displays accurate and up-to-date formulary information during the Annual Election Period (AEP). Enhancements, which include the addition of a Part D drug, the movement to a lower cost-sharing tier, and the removal of utilization management (UM) requirements, can be implemented immediately by a Part D sponsor.

Part D sponsors may submit their CY 2020 formulary enhancements between **12:00 a.m. EDT September 23, 2019 and 5:00 p.m. EDT on September 26, 2019**. An updated CY 2020 formulary reference file (FRF) will be available within the CY 2020 HPMS Formulary Submission Module by close of business on September 16, 2019. In addition to the inclusion of RXCUIs that are new to the FRF, Part D sponsors will be permitted to submit other enhancements that have been made to their formulary since the August formulary update window. However, since the Part D bid that was submitted to and approved by CMS would have reflected the formulary submitted as part of the bid, we do not expect to see a significant number of enhancements for a given formulary.

If you have any questions regarding this formulary enhancement window, please email PartDFormularies@cms.hhs.gov
