INS6. As you know from all of the interviews that we have conducted [for (SP)], the Medicare Current Beneficiary Survey has been collecting data from approximately 12,000 beneficiaries since 1991. This data has been extremely useful to many researchers who are dealing with issues regarding medical care availability and the cost of medical care for people such as [you/(SP)].

At this time, the survey is going to start interviewing some new beneficiaries and we will stop interviewing some of the people who have been with the survey for quite some time. [(You are)/(SP is)] one of the people that we will no longer interview.

Therefore, this will be the last interview that will be conducted [with you/for (SP)]. [Because this is the last interview [for (SP)], I will not collect any utilization information. However, outstanding charge information will be collected as usual in the Charge Payment Summary and we will complete a final income and assets series. This will be a very short interview, different from most of the others conducted [for (SP)].

[PRESS ENTER TO CONTINUE.]
