This file consists of one record for each SP who met two conditions as of the fall round. First, the SP had to report that he or she was enrolled in Medicare HMO at the time of the community interview in the fall round. Second, CMS records had to show a capitation payment to a Medicare HMO on behalf of the SP for the month of the interview.

These data augment information from the Access to Care and Satisfaction with Care sections of the questionnaire. It contains information about access to and satisfaction with medical services received through the HMO. It also contains the SP's assessment of the quality of medical care they are receiving, types of additional coverage offered, and any out-of-pocket costs associated with the HMO.
