Variable	Col	Len	Format	Frequency	ComQues#	FacQues#	Variable Type & Label
----------	-----	-----	--------	-----------	----------	----------	-----------------------

The Survey Health Status and Functioning file includes data about the sample person's health including height and weight, self-assessments of vision and hearing, history of medical conditions, functioning, among others.

This file started in 1997 when the facility instrument was converted to a Computer-Assisted Personal Interviewing format. It contains one record for each person who completed a facility interview. From 1992 through 1996, similar data may be found in RIC 2.
