

PLACE ROSTER

The Place Roster is a list (at the facility level) of all places that are mentioned in the Facility Questionnaire and the SP-level questionnaires in all rounds. At the beginning of Round 18, it is initialized with the FACILITY name. The Locator Code is set as TARGET FACILITY, Status is set to ELIGIBLE, and Place Type is set to ELIGIBLE LTC. Locator code and status are flags. (For Place Roster displays, only the name and place type are shown in text.)

The MCBS status categories are ELIGIBLE and INELIGIBLE. (See BOX FA12, p. 35.) When a place's MCBS status has been determined as ELIGIBLE, an asterisk should be placed immediately to the left of that place, designating that .NNHESSTAT is ELIGIBLE.

.NNHESSTAT

The MCBS locator codes for sampled facilities are:

1. TARGET FACILITY
2. TARGET FACILITY, PART OF LARGER FACILITY
3. TARGET FACILITY AND LARGER FACILITY
4. LARGER FACILITY
5. PART OF LARGER FACILITY
6. PART OF TARGET FACILITY
7. OTHER

.LOCCODE

For place type categories, see BOX FA11 (p. 33).

Three levels of potential interest are pinpointed in the Facility-level Questionnaire: the eligible long-term care place, the larger place it is part of, and the parts within the long-term care place.

The Place Roster arrays these three levels in a hierarchy. First is the LARGER FACILITY (if any), followed by all the parts whose MCBS statuses are ineligible. Next is the TARGET FACILITY, followed by the parts within it -- first those that are eligible, followed by any that are ineligible. (The TARGET FACILITY may itself be a larger facility, with nursing units contained within; each nursing unit may have special units within it. But we don't expect or allow more than one LARGER FACILITY per case.)

The nesting units within a larger facility are indented under the largest entity. For example, if the larger facility is a CCRC, then the Place Roster will display:

PLACE NAME	PLACE TYPE
CCRC	ELIG LTC
Nursing Unit	ELIG LTC
Assisted Living Unit	ELIG LTC
Residential Units	COMMUNITY
Riverside Hospital	HOSPITAL

If there are special care units within an eligible long-term care unit, they will be nested within the nursing unit on the Place Roster. An example below:

PLACE NAME	PLACE TYPE
CCRC	ELIG LTC
Nursing Unit	ELIG LTC
General Population Unit	ELIG LTC
Alzheimer Unit	ELIG LTC
Assisted Living Unit	ELIG LTC
Residential Units	COMMUNITY
Riverside Hospital	HOSPITAL

Additions to the Place Roster from the SP-level questionnaires are placed after the parts of the TARGET FACILITY. HOSPITALS precede other PLACE TYPES. Order by ascending code (following the code structure of FA1). For other place types, order by ascending code (following the code structure of FA12).

In the SP-level questionnaires, any unit can be selected. However, if the interviewer selects the CCRC in the first example, or the CCRC or the nursing unit in the second example, we will display a soft range error message that asks the interviewer to verify the selection. If the selection passes the soft range message, we will use the place type for the selection in the instrument section. We want to give interviewers flexibility if their respondent cannot give the detailed unit we have mapped out. We are thinking about using color to indicate which units could be selected.

DESIGN NOTE: May want to put above range check.

Display Instructions

Do not display a facility or unit header on screens that use Place Roster. Allow 3 lines for other header information.

Allow 5 lines for question text on screens that use Place Roster, plus a following blank line.

Display 8 lines within the roster window plus a line for headings above, a line drawn to form the bottom of the box, and a blank following line.

Display "**CONSIDER THIS PLACE..." on the 21st line when there are two or more places on the Roster and at least one of them has MCBS STATUS = ELIGIBLE.

Display interviewer instructions in screen tail (line 24).

Allow two spaces for a checkmark to be displayed at the far left, when a place is selected from the Place Roster.

Allow one space for an asterisk to the left of NAME, to denote places with MCBS STATUS=ELIGIBLE.

Allow 30 spaces for NAME field.

Allow 4 spaces to separate NAME and ALSO KNOWN AS... fields.

Allow 20 spaces for ALSO KNOWN AS... field.

Allow 4 spaces to separate ALSO KNOWN AS... and PLACE TYPE fields.

Allow 10 spaces for PLACE TYPE.

SAMPLE LAYOUT

PLACE NAME	ALSO KNOWN AS...	PLACE TYPE
JORDAN HOME		ELIG LTC
HORIZON HOUSE		COMMUNITY
/ * Samson House		ELIG LTC
* ALZHEIMER'S UNIT	FIFTH FLOOR	ELIG LTC
* HEALTH CARE UNIT		ELIG LTC
* THOMAS WING	ASSISTED LIVING	ELIG LTC
NAOMI HOUSE		COMMUNITY
* MERCURY HOUSE		ELIG LTC

{*CONSIDER THIS PLACE AS PART OF THE ELIGIBLE CASE.}

USE ARROW KEYS. ENTER = SELECT. CTRL/A = ADD. TO EXIT, PRESS ESC.

There are five types of Place Roster screens:

1. The Place Roster display for review only;
2. The full Place Roster display for selection and addition;
3. A static display of the facility parts on the Place Roster, excluding the place referenced first in the question text;
4. Dynamic display of all facility parts on the Place Roster, for selection only; and
5. A dynamic display of the eligible facility parts (i.e., MCBS Status=ELIGIBLE and Place Type=ELIGIBLE LTC) for selection only.

The sample layout displayed above is for the second version of the Place Roster, the primary format used in Residence History.

Table 1 shows the functions that are allowed for each Place Roster version, and where each is used in the CAPI application.

Table 1. Place Roster Versions throughout the MCBS Application

<u>Description</u>	<u>Functions Allowed</u>	<u>Location</u>
1. All Facility Parts	Review only	F2, FA16a, FA30a, FA66a
2. All places	Select, add	RH21
3. All "other" facility places	NA (static list)	RH11A, RH11B, RH21C
4. All Facility Parts	Select only	RH2B, BQ15a, IN11, RH21D
5. Eligible parts (lowest level)	Varies	FA85PRE, RH1, FA24PRE

Sample layouts of each version follow page 11 as "ATTACHMENT A".

Version 1. The "all facility parts" version is for review only. It's displayed whenever the F2 key is pressed throughout the application. It is also displayed at specific points in the Facility Questionnaire. They are:

- # FA16a (in the Facility Structure section) following the entry of parts or units in a complex facility;
- # FA30a after the identification of some non-nursing beds in the eligible units; and
- # FA66a following the naming of special care units and the remainder of the nursing beds in the eligible unit(s).

The first version differs from the sample layout only in the screen tail (the bottom line on the screen): the interviewer instruction reads "USE ARROW KEYS. TO EXIT, PRESS ESC." Also note that no SP-level data are included; only facility-level places are displayed.

Version 2. The "all places" version for selection and addition is the full-blown Place Roster, including SP-level additions from Residence History as well as the facility-level entries. It is only accessed in Residence History: RH21 asks where the SP went (after determining a move occurred).

Version 3. The "all 'other' facility places" version is not a roster at all, but the static display of "other" facility parts (as a simple list, not in dynamic format). It is used in:

- # RH11A and RH11B, questions that determine whether the SP has been in the REF. DATE unit (or the place at the last interview date) the whole time; and
- # RH21C, a question that is called when adding facility places in residence history, to determine if the added place is also known by any of the names for parts of the facility that were already enumerated.

The list of all other facility-level units is displayed (i.e., the unit referenced in the question text is excluded).

The third version display differs markedly from Version 2: only the Place Name and the Also Known As... entry are displayed, and only for places that are collected at the facility level. Furthermore, the RH displays exclude the place referenced first in the question text. There are no asterisks or checkmarks, no indentation, no place type, no footnote for eligible parts of the case, and no interviewer instructions at the bottom.

Version 4. Like Version 1 -- it displays all facility parts -- but it allows selection. Two items in the SP-level instruments in Target Facilities access this Place Roster display:

RH2B captures residence at Most Recent Admit Date;

RH21D determines which part of the facility is the same as the place added in RH21;

The display includes an additional line at the bottom of the list, for "OTHER PLACE." (The display for RH21D is an exception; no "OTHER PLACE" choice is displayed for RH21D.) The asterisks are omitted, and there is no footnote beneath the list. The screen tail omits the instruction regarding additions.

Version 5. The last type of Place Roster display, the "eligible parts" version, is used in several places to present only the eligible parts of the facility -- that is, places with MCBS STATUS=ELIGIBLE and PLACE TYPE=ELIGIBLE LTC -- at the lowest level reported. (For example, in the sample layout, only the Alzheimer's Unit, the Health Care Unit, the Thomas Wing, and Mercury House would be displayed.)

Eligible parts, including the TARGET FACILITY, are listed in FA24PRE. These places are, thereafter, listed in the "special" header, right justified.

Version 5 takes a different form for each appearance. In FA85PRE it is presented as a static list.

Place Roster Updates. As noted above, the Place Roster is initialized with the Target Facility name. Additions or changes to the Place Roster can occur at the following points in the application:

- FAVERIF1 (name updates for Target Facility)
- BOXES FA5, FA7, FA8 (set locator code, hence order of places on Roster)
- FA11-14 (adds parts or units in complex facilities)
- BOXES FA10, FA11, FA12, and FA16 (set locator code, status code, and place type)
- FA26, FA27 (add non-nursing units within eligible units)
- FA55, FA56 (add special care units)
- FA66 (adds name for remainder of eligible units)
- RH21 (adds name of place SP went to)
- RH21C (determines if added place is same as a facility unit already listed)

ATTACHMENT A

SAMPLE LAYOUT OF PLACE ROSTER

Place Roster Version 1 - Used at F2, F16a, FA30a, FA66a

Parts are indented according to facility hierarchy.

Asterisks are displayed for eligible facility parts in F2, FA30a, FA66a

PLACE NAME

ALSO KNOWN AS...PLACE TYPE

Displays all facility parts
For Review Only

{*CONSIDER THIS PLACE AS PART OF THE ELIGIBLE CASE.}
USE ARROW KEYS. TO EXIT, PRESS ESC.

Place Roster Version 2 - Used at RH21

Parts are indented according to facility hierarchy.

SELECT ONE.

PLACE NAME

ALSO KNOWN AS...PLACE TYPE

Displays all places - facility and non-facility places
Select and add allowed

*CONSIDER THIS PLACE AS PART OF THE ELIGIBLE CASE.

USE ARROW KEYS. ENTER=SELECT/DESELECT CTRL/A=ADD CTRL/D=DELETE ESC=EXIT

Place Roster Version 3 - Used at RH11A, RH11B, RH21C

Displays all other facility parts as a list, not a roster. List is displayed flush left below the Q text, above the input field.

In RH11A and RH11B, excludes the current place displayed in question text.

In RH21C, excludes the added place displayed in question text.

Place Roster Version 4 - Used in RH21D

No parts are indented.

No asterisks are displayed.

SELECT ONE.

PLACE NAME

ALSO KNOWN AS...PLACE TYPE

Displays all facility parts
Selection only is allowed
SOME OTHER PLACE is displayed for BQ15A, IN11 only

USE ARROW KEYS. TO SELECT/DESELECT, PRESS ENTER. TO EXIT, PRESS ESC.

ATTACHMENT A (cont.)

Place Roster Version 5 - Used in FA24PRE, FA85PRE

Displays the lowest level of eligible parts of the facility (MCBS STATUS=ELIGIBLE and PLACE TYPE=ELIGIBLE LTC).

No asterisks are displayed.

At FA24PRE and FA85PRE Version 5 is displayed as a list, with the lowest level eligible facility parts all displayed flush left.

SELECT ONE.

PLACE NAME

ALSO KNOWN AS...PLACE TYPE

Displays lowest level eligible facility parts
Selection only is allowed
IN FACILITY - CAN'T TELL WHERE
SOME OTHER PLACE

USE ARROW KEYS. TO SELECT/DESELECT, PRESS ENTER. TO EXIT, PRESS ESC.

These update points play a role in the design of the F2 function, reviewing the Place Roster at any point in the application. When F2 is invoked, the Place Roster as it existed at the latest update point should be displayed.

Flow for Residence History Additions to the Place Roster

All RH21 additions to the Roster go immediately to RH21B.

RH21B
Display as an overlay.

--------------	---

In RH21, besides the capability of adding a place to the Roster, the interviewer has the ability to use arrow keys and add or overwrite an entry in the "ALSO KNOWN AS..." field for an existing line.

The Use of Places in SP-level Section Headers

There are no place headers in Residence History. All other SP-level sections feature a header that includes the eligible LTC places in this facility (i.e., places with MCBS status=eligible) where the SP resided during the reference period. The only exception are screens that include the Place Roster; these screens have no places in the header.

For screens that don't include the Place Roster in HS, PM, USE, and EX the eligible unit where the SP lived during the reference period is displayed right-justified on the second line of the screen. If the SP lived in three or four eligible units during the reference period, they are right-justified on the third, fourth, and fifth lines. If the SP lived in more than four eligible units, the fifth line reads: "MORE UNITS -- USE F2" and is right-justified.

RR1-7 **RESPONDENT ROSTER**

The Respondent Roster is a list (at the facility level) of all respondents (and potential respondents) identified in the course of data collection.

In the course of the CAPI application, every point that calls for an addition to be made to the Respondent Roster is signalled by a question, such as "Who is ...?" or "What is the name of the ...?" The entry to such a question is automatically posted to the NAME cell on the next available line of the Respondent Roster, the interviewer is presented with the roster screen, and the cursor is in the title cell for the roster addition.

In the title cell the interviewer can enter the title code from memory, and the text for the category should be displayed in the roster. If the interviewer escapes from the roster and the title cell is not filled, the RR2 question is presented as specified at various points throughout the Facility Questionnaire. The question is formatted as a choice roster with answer categories (codes and text) displayed as formatted on the following page. After an entry is made, it should be posted to the respondent roster in the title cell next to the appropriate name.

PLAC.NNHESTAT

.RHPLACTY

FA16a

Display the Place Roster in a "view only" matrix.

The Place Roster should reflect the hierarchical relationship for added facility places. Added places are assigned a locator code. If the locator code is "PART OF TARGET FACILITY" or "PART OF LARGER FACILITY," followup questions will determine date started, date ended and possibly more (if this place looks like a place that should have been enumerated in FA). So if the locator code is "PART OF TARGET FACILITY," show it indented under the target facility; if it's "PART OF A LARGER FACILITY," show it indented under larger facility.

FA16a (PLACROST)

HERE IS THE CURRENT PLACE ROSTER FOR YOUR REVIEW:

{PLACE ROSTER VERSION 1}

USE ARROW KEYS. TO EXIT, PRESS ESC.

BOX FA12

The basic rule which determines which places are eligible for inclusion for this questionnaire is:

- All parts of a facility with a MCBS code NOT equal to community or hospital are eligible.

If the TARGET FACILITY is a larger facility (LF) or a nursing home (NH) or other LTC place, or the Place is flagged as LARGER FACILITY, or the Place is coded 4 in FA12, apply the BOX FA12 items. Order Places in Place Roster Order (Larger Facility -- if other than Target Facility, Parts of Larger Facility, Target Facility, Parts of Target Facility). For each Place, apply statements in order until directed to next Place, to Closing, or to Item 5 (the last item in BOX FA12).

BOX FA12	<ol style="list-style-type: none"> 1. If the Target Facility's locator code = TARGET FACILITY AND LARGER FACILITY, set MCBS status=ELIGIBLE. (Eligibility will be determined for its parts in the steps below.) Go to next place. If no remaining places, go to Item 5 below. 2. If Place has locator code=PART OF TARGET FACILITY, set TENTATIVE ADDITION flag = YES for this Place and go to the next Place or Item 5 below. 3. If Place has locator code=PART OF LARGER FACILITY, set TENTATIVE ADDITION flag = YES for this Place and go to the next Place or Item 5 below. 4. Unless the Place is the Target Facility, set MCBS status=INELIGIBLE for this Place and go to next Place or Item 5. 5. If the target facility's MCBS status=INELIGIBLE, and no Place is flagged TENTATIVE ADDITION, go to CLOSING 2. Else, loop through FA17 and FA18 for each TENTATIVE ADDITION. Else, if no TENTATIVE ADDITIONS, go to FA19 for MCBS FACILITY.

See instructions above FA20 for displaying "PREFERRED NAME..."

FA47

Based on your most recent daily census, how many current residents have {"PREFERRED" NAME FOR MEDICAID} {(or {"ALLOWED FOR" NAME(S) FOR MEDICAID})} as a source of payment?

NUMBER OF RESIDENTS

FACA.MCAIDRES

PROGRAMMER SPECS:

Soft range: 3-300; hard range: 0-1,600.

Consistency check: If the entry is greater than 100% of the entry in FA43 plus FA44, display the following message:

If it is, display the following message:

The number of Medicaid residents in FA47 ({FA47}) cannot be greater than the number of Medicaid certified beds in the facility ({FA43+FA44}).

REVIEW NUMBERS WITH RESPONDENT. BACK UP TO CORRECT.

BOX FA22G	If FA21 = 1, go to FA48. Else, go to FA49.
--------------	---

FA48

Based on your most recent daily census, how many current residents have Medicare as their primary source of payment?

NUMBER OF RESIDENTS

FACA.MCARERES

PROGRAMMER SPECS:

Soft range: 3-300; hard range: 0-1,600.

Consistency check: If the entry is greater than 100% of the entry in FA43 plus FA45 display the following message:

The number of Medicare residents in FA48 ({FA48}) cannot be greater than the number of Medicare certified beds in the facility ({FA43+FA45}).

REVIEW NUMBERS WITH RESPONDENT. BACK UP TO CORRECT.

FA49

Based on your most recent daily census, how many of the current residents in {FACILITY} have private pay as their only source of payment for basic care?

NUMBER OF RESIDENTS

FACA.PRPAYRES

PROGRAMMER SPECS:

Soft range: 3-300; hard range: 0-1,600.

Consistency check: If FA49>0, FA49 cannot be greater than 100% of FA19 minus the sum of FA28 minus FA47 or FA48 (whichever is greater).

If it is, present the following message:

The number of private pay residents in FA49 ({FA49}) cannot be greater than the number of nursing beds in the facility ({FA19-(FA28-(FA47 or FA48))}).

REVIEW NUMBERS WITH RESPONDENT. BACK UP TO CORRECT.

FA52

How many residents were in {FACILITY} altogether at midnight last night?

NUMBER OF RESIDENTS

FACA.MIDNTRES

PROGRAMMER SPECS:

Soft range: 3-300; hard range: 0-1,600.

Consistency check: FA52 cannot be greater than sum of FA19 minus the sum of FA28. If it is, present the following message:

The number of residents in eligible units in FA52 ({FA52}) cannot be greater than the sum of all beds in the facility minus those beds in ineligible units ({FA19-FA28}).

REVIEW NUMBERS WITH RESPONDENT. BACK UP TO CORRECT.

CLOSING 4 omitted.

CLOSING 5

Thank you. Those are all the questions I have for you at the moment for this {FACILITY}. Someone from my office may call you to verify some of the data I have collected. We appreciate your help on this important study.

PRESS ENTER TO RETURN TO FACILITY NAVIGATION SCREEN.

CLOSING 6

Thank you. Those are all the questions I have for you at the moment. Right now, I need to make arrangements to speak to {NAMED RESPONDENT}.

PRESS ENTER TO RETURN TO FACILITY NAVIGATION SCREEN.

CLOSING 7 omitted.

SECTION MD: FACILITY MISSING DATA

Facility Level Data Retrieval

At the facility level, data retrieval of missing data may occur at three different points in the application. The first is data retrieval of critical items (and other non-critical items noted for data retrieval) in the FA section of the facility questionnaire. The second is collection of the facility rate schedule. If FR1PRE = 2 (a printed rate schedule will be available later in the day), then the data retrieval "introduction screen" (FQ_MISS) will include collection of the facility rate schedule as a viable choice. The final point at which data retrieval may occur is for collection of the SAQ. If at FA85 (status of the SAQ), the status is other than "4" or "2" ("COMPLETE"), the data retrieval introduction screen will include updating the status of the SAQ as a choice.

On the facility navigate screen, if there is any data retrieval to be done, then the line for "CURRENT STATUS" will indicate that facility data retrieval needs to be done and the line for "FACILITY QUESTIONNAIRE" will say "MISSING DATA".

SAMPLE LAYOUT

F_SELECT	
FACILITY NAVIGATION	
CURRENT STATUS: (NEED FAC RETRIEVAL AND SP WORK)	
1. FACILITY QUESTIONNAIRE	(MISSING DATA)
3. SP NAVIGATION	(READY)

When "1" is selected at the navigate screen when the facility questionnaire status is "MISSING DATA", the flow is from the navigate screen to FQ_MISS. This screen provides the interviewer with the options for collecting missing data as described above.

SAMPLE LAYOUT

FQ_MISS

MISSING DATA

INTERVIEWER: WHAT WOULD YOU LIKE TO DO?

()

0. RETURN TO FACILITY NAVIGATION SCREEN

- | | |
|---|------------|
| 1. RETRIEVE FACILITY LEVEL MISSING DATA | (FQ_MISS1) |
| 2. MARK STATUS OF SAQ | (FA85) |
| 3. COLLECT THE FACILITY RATE SCHEDULE | (FR1PRE) |

{INTERVIEWER MESSAGE}

PROGRAMMER SPECS:

1. RETRIEVE FACILITY LEVEL MISSING DATA

When item 1 is selected the interviewer is presented with the missing data summary screen. This screen provides for review of all missing data for the sampled facility. It will have a permanent header, centered, that says: THE FOLLOWING ITEMS ARE MISSING FROM FQ. CONFIRM THAT RESPONDENT CAN ANSWER AT LEAST ONE QUESTION.

After reviewing these items and pressing <ENTER> on the last of the review screens, the interviewer is presented with the respondent roster (RR1) in order to select the respondent who will attempt to answer the missing data questions.

If a respondent is selected, the application is steered to the first of the missing data items followed by all remaining missing data items. After entering an answer for each item, the interviewer is returned to FQ_MISS. (Unless there is no more missing data, in which case, the application goes to FAEND, then the facility navigation screen.)

The items in the facility application that may be flagged for data retrieval are as follows:

FAVERIF1-5
PLACTYPE
Some items from the FA19-23 (eligibility block)

"MISSING DATA" on the FQ_MISS screen and at the navigate screen can be set to COMPLETE if none of the items in the missing data module are flagged "-8" (DK). Otherwise, the MD module remains open.

If there is no facility level missing data, that is "1" is not a viable entry, display a message at the bottom of this screen: "THERE IS NO FACILITY LEVEL MISSING DATA."

2. MARK STATUS OF SAQ

If the interviewer selects "2" from FQ_MISS, CAPI goes directly to FA85 and the interviewer updates the SAQ status accordingly.

If FA85 for the FACILITY/ELIGIBLE UNITS has been entered as "2" or "4", display a message at the bottom of the screen: "THERE ARE NO SAQS THAT NEED TO BE MARKED."

3. COLLECT THE FACILITY RATE SCHEDULE

If the interviewer selects "3", from FQ_MISS, CAPI goes to FR1PRE. In the data retrieval module, all of the text on the screen is optional because FR1PRE has already been presented once. It is important to display the text in FR1PRE because it shows the interviewer (in the header) the units to be included on the rate schedule as well as the types of rates (i.e., Medicaid, Medicare, private pay) expected. If a printed rate schedule is provided, the interviewer will check the schedule for the expected rates, as specified in section FR of the facility questionnaire.

If FR1PRE is coded "1" or "0" for all FACILITY/ELIGIBLE UNITS, display a message at the bottom of the screen: THERE ARE NO FACILITY RATE SCHEDULES THAT NEED TO BE COLLECTED.

What follows are the three different Missing Data modules relevant to facility level data collection.

RETRIEVE FACILITY LEVEL MISSING DATA

FQ_MISS1

For any critical items with invalid responses (as specified in the programmer specifications for the Facility Questionnaire), display flush left, the screen name of the missing item and in a second column the screen text for that item. Display the items in the same sequence in which they appear in the application.

FQ_MISS1

THE FOLLOWING ITEMS ARE MISSING FROM FQ.
CONFIRM THAT RESPONDENT CAN ANSWER AT LEAST ONE QUESTION.

{FAVERIF1	IS SF'S NAME CORRECT?}
{FAVERIF3	IS SF'S ADDRESS CORRECT?}
{FAVERIF4	IS SF'S ADMINISTRATOR CORRECT?}
{FAVERIF5	IS SF'S PHONE NUMBER CORRECT?}
{FA_PLACE	TYPE FOR {PLACE NAME}?}
{FA19	NUMBER OF BEDS IN{FACILITY/TENTATIVE ADDITION}?}
{FA20	MEDICAID CERTIFICATION FOR {FACILITY/TENTATIVE ADDITION}?}
{FA21	MEDICARE CERTIFICATION FOR {FACILITY/TENTATIVE ADDITION}?}
{FA21B	MEDICAID-ICF/MR CERTIFICATION FOR {FACILITY/TENTATIVE ADDITION}?}
{FA22	STATE DEPARTMENT LICENSING FOR{FACILITY/TENTATIVE ADDITION}?}
{FA22B	NON-NURSING LICENSING FOR {FACILITY/TENTATIVE ADDITION}?}
{FA85	SAQ MISSING FOR{FACILITY/ELIGIBLE UNIT}}
{FR1PRE	RATE SCHEDULE MISSING FOR {FACILITY/ELIGIBLE UNIT}}

PRESS ENTER TO CONTINUE.

PROGRAMMER SPECS: After pressing enter on the last FQ_MISS screen, the application should go to the respondent roster with the cursor on the first entry in the roster, RR1.

SAMPLE LAYOUT

RR1

RESPONDENT ROSTER

	RR1 NAME	RR2 TITLE
--	-------------	--------------

**FACR.FACRNAME.FACRTIOS

- 35 = Electronic Data Processing Staff Member

91 = OTHER (SPECIFY)

FAVERIF6

A chain is a group of nursing homes or facilities that are operated under common management. Chain nursing homes/facilities are physically located at different sites. Common ownership is not sufficient to define a chain; the group of nursing homes must also be under common management to qualify as a chain.

FA1

By definition, free-standing nursing homes are located in their own building or unique site and are not associated with any other places that provide long-term care or other services to disabled or elderly populations in that building or on that site.

One exception: A few hospital-based SNFs (Skilled Nursing Facilities) may be located in a satellite location (i.e., on a separate site from the hospital). These should be classified in category 7 (hospital-based SNF unit).

FA2

Examples of places that are PHYSICALLY part of a LARGER place or campus are a Skilled Nursing Facility (SNF) wing that is a part of a hospital, special care unit (e.g., Alzheimer's unit) that is part of a nursing home, or a nursing home that is a part of a retirement community.

FA3
FA5

"Hospital" is a broad concept. It includes the following: acute care hospitals; private psychiatric hospitals; state or county hospitals for the mentally ill; Veterans Administration hospitals and medical centers; state hospitals for the mentally retarded; chronic disease, rehabilitation, geriatric, and other long-term care hospitals; and other places that are commonly called hospitals.

A hospital-based SNF unit is certified by Medicare to provide skilled nursing services. It could be based within any of these hospital types.

FA8

AS NECESSARY, USE THESE PROBES IF RESPONDENT DOES NOT UNDERSTAND THE FIRST QUESTION.

1. Don't include personal care beds, or board and care, domiciliary, or residential rest homes.
2. Certified or licensed nursing facilities must provide 24-hour-a-day, on-site supervision by an RN or LPN 7 days a week.

FA12

Assisted living facilities, board and care homes, domiciliary care homes, personal care homes, and rest homes are various terms for residential care facilities. They are places that offer residents help with activities, such as bathing and dressing, but do not provide 24-hour nursing services. (Some residents at a residential care facility may not require such assistance, but it must be available to them.)

FA19

Include all beds staffed and set up for residents. Do not include beds used by staff or owners or used only for day care patients or emergency care.

FA25

MCBS considers a facility to be "otherwise identified" as a long-term care facility if it:

Provides at least one long-term care service

or

Provides 24-hour, 7-day a week supervision by a caregiver.

FA26

The MCBS definition of eligible beds providing long-term care covers a wide range of care levels, from skilled nursing care to low levels of assistance or supervision with daily living activities.

Examples of facility beds not providing long-term care are apartments in a retirement community and beds that do not provide 24-hour-a-day assistance or supervision with daily living activities.

FA46

FB46

Remember, this screen deals only with MCBS-eligible, long-term care beds. Some of these are (1) licensed or certified and some are (2) "otherwise identified" as long-term care beds. If the facility has (more or fewer) beds that fall neither in category 1 nor in 2, you should back up to FA25 and come forward, changing answers as appropriately supplied by your respondent in response to probes.

FA55

FA56

Dialysis can mean peritoneal (abdominal cavity) dialysis or kidney dialysis.
