

MCBS MAIN STUDY - ROUND 34, FALL 2002  
COMMUNITY COMPONENT  
NS. CHARGE QUESTIONS (NO STATEMENT SERIES)

The No Statement series is asked only of events that are not linked to charges (i.e., once an event has charge data entered for it or has a flag indicating that it has been asked about in the No Statement question series, that event should not come up at NSINTRO1).

Specifically, the No Statement series is asked for:

Each visit collected in section DU, ER, IP, OP, HH, or MP that is not associated with a charge bundle in the Statement series. There is an exception to this: if the month field of the discharge date for an IP stay or the month field of the completion date for an OM alteration = 95, that visit or alteration should not be prompted for in the No Statement series. It should also be noted that HH events should be prompted for only if there is no entry for the provider for HH in the Statement series (i.e., HH event for a provider will only be asked about once).

Each OME date (or dates) collected in OM2, OM4, OM7, OM10, OM12, OM14, OM20, OM22, OM26, OM30 or purchases collected in OM25 that is not associated with a charge bundle in the Statement series.

NOTE: Rental items that have statement information should not go to NS. A rental item should go through NS if the rental stopped during the current round (RENTENDR=CURRENT ROUND) and if the item is not already linked to a current round charge bundle. Otherwise, rental items with no current round statement information should go to NS every round if: 1) the item is still being rented (RENTSTIL=1); or 2) the rental stopped but the SP had costs for the item in this round, as indicated at PS1a (HADPYMNT=1 and PYMNTNRND=CURRENT ROUND). The cost entered during the current round reflects the cost for the current reference period. All header displays of a rental event should display the event, rental start date, rental end date or rental symbols, and the reference period during which the particular cost was created.

Each prescribed medicine without any purchases linked to a charge bundle during the statement series.

Include all events reported during the normal course of the utilization sections (including Utilization Summary), events added using Interrupt, and events added during the Statement series that do not have associated charges. Sort all these events by event type (EVNTTYPE); within event type, events should be sorted in the order they are entered (as indicated by EVNTNUM). The order of events is: DU, ER, IP, OP, HP, HF, MP, OM, PM, SD, and SL. These types should then be presented through NS, in that order. The NSINTRO1 and EVENT headers to be displayed for each type of event are listed on a following page.

The No Statement series is NOT asked if:

OM25 = REF or DK or item was included in a Statement series bundle;

PM6a = REF or DK or item was included in a Statement series bundle;

hospital stay where SP is currently in hospital (IP5/INT7 = 95);

Institutional utilization (IU1 = 1);

OM alteration is not yet completed (OM30/INT8 = 95);

a rental item did not have current round costs as indicated at PS1a (HADPYMNT = 2, -7, or -8 and PYMNTNRND = CURRENT ROUND);

number of times prescribed medicine was obtained (PM6a or INT9) = 0, REF, or DK;

any part of the total number of purchases (including Don't Know and Refused) of any prescribed medicine, ostomy supply, incontinence supplies, or bandages has been previously linked during the current round Statement series, the current round No Statement series, or any previous round Statement or No Statement series;

any part of the total times per month has been previously linked in the current round Statement Series, current round No Statement series, or any previous round Statement or No Statement series;

home health utilization is a meal program (HH6 = 2 or HH25 = 2) where the only service provided is meal delivery (HH7 = 2 or HH26 = 2) or HH7 or HH26 = REF or DK.

Note: Events entered during the current round for exit cases will go through NS in the same manner as events for continuing cases. If appropriate, the bundle will go to CPS and then return to NS for any remaining current round events that do not have cost information.

Note: An event with Shift/5 in the date should go through NS one time only, regardless of how many of the visits are linked to the total charge at NS3a.

The following are specifications to be used wherever "EVENT: XXXXXXXXXX" appears for any of the NS screens.

<u>EVENT</u>	<u>DISPLAY</u>
DENTAL VISIT(S) FROM DU6	dental visit to (PROVIDER FROM DU2) on [DATE(S) FROM DU6]; if event date = RV, display “[#] visits to (PROVIDER FROM DU2) during the month of [MONTH]”, where # = times per month and MONTH = month from event date.

SEPARATELY BILLING LAB	LAB SERVICES FROM (PROVIDER) ON (DATE); if event date = RV, display “[#] lab services provided by (PROVIDER) during the month of (MONTH), where # = times per month and MONTH = month from event date.
SEPARATELY BILLING DOCTOR	SERVICES FROM (PROVIDER) ON (DATE)

For any provider event where the day event occurred = shift/5, the number of times per month should be displayed before the 1st word in the current display and the word “visit” in the display should become plural (visits), e.g., 15 visits to the OPD at St. Joseph’s during the month of July.

Note: All unlinked purchases of prescribed medicines, ostomy supplies, incontinence supplies, or bandages entered for either the previous or current round should be added together and presented in NS.

\*Rental other medical expenses from: OM7a, OM20a, OM22a, OM26a should display a start date and a stop date. If OM7b, OM20b, OM22b, or OM26a1=1, display “RR” for stop date. If RENT2BUY=2, display “OW” for stop date. Otherwise, display end date for stop date. If displayed stop date has -7 or -8 in any date field, display “RF” or “DK” in that date field as appropriate. Refer to the General Specifications section for further instructions on date displays for rental events.
