Note: An \* indicates a sample size of 50 or less. Standard errors are shaded and in italics. See Appendix A for additional information on standard errors. See Appendix B for definitions of terms and variables.

1 The term community residents includes beneficiaries who resided in the community at the time of the round 67 interview (fall 2013), and beneficiaries who resided in the community at the time of the round 64 interview (fall 2012) who died prior to the round 67 interview.

3 Medicare beneficiaries with end-stage renal disease (ESRD) are included within the subgroups of "Aged" and "Disabled."

4 Income estimates are derived from imputed income data. Standard errors of income estimates may be underestimated as they have not been adjusted to reflect the imputation of missing data.
