¹Includes 53 counties, with 99,000 beneficiaries, where PFFS became available in December 2001.

²The 2004 and 2005 data reflect the reclassification of the metropolitan statistical area (MSA) status of a number of counties. There was a net reduction in the number of Medicare beneficiaries residing in non-MSA (rural) counties of about one million. About 1.5 million beneficiaries were in the counties changing from non-MSA to MSA status, and about half a million beneficiaries were in counties that changed from MSA status to non-MSA status (generally because of being assigned to the new category of micropolitan areas).

³2005 data are as of January 2005.
