¹Represents total expenditures aggregated on an incurred basis. Because of differences in methodology, definition, and completeness, the PHCE for Medicare services are somewhat higher than the corresponding Medicare program payments shown elsewhere in this publication. PHCE excludes health expenditures for construction, program administration, government public health activities, and research.

²Subset of Federal funds.

³Subset of Federal, State, and local funds.

⁴Excludes State Children's Health Insurance Program and Medicaid expansion.

NOTES: PHCE is personal health care expenditures. GDP is gross domestic product. Numbers may not add to totals due to rounding. Refer to "Health Accounts," for National Health Expenditures data files and category definitions <www.cms.hhs.gov/statistics/nhe>.
