Washington	4,524,033	485,501	495,854	192,955	108,753

¹The total includes payments for all types of services reported on the HCFA Form-2082 and the Medicaid Statistical Information System (MSIS), some not shown separately.

²The relative lower amounts of fee-for-service payment amounts by type of service for Arizona, Hawaii, and Tennessee, reflects the large proportion of the covered population in managed care in those States. The capitated payments for members of prepaid health care are included in the total but are not distributed by the type of service.

NOTES: Beginning fiscal year 1998, capitated premiums for Medicaid eligibles enrolled in managed care plans were included in this series as a component of the total payment categories. In addition, the HCFA Form-2082 was revised to include two new service categories: personal care services and home and community-based waiver services (not shown separately in this table). This created a reallocation of payments from other categories such as home health.

SOURCES: Centers for Medicare & Medicaid Services, Center for Medicaid and State Operations: Medicaid Statistical Information System (MSIS); data development by the Office of Research, Development, and Information.
