¹Includes beneficiaries who received any service, some not shown separately. Numbers do not add to total by type of service because one person may use several types of services.

²The relatively low number of persons served (beneficiaries) under fee-for-service by type of service for Arizona, Hawaii, and Tennessee reflect the large proportion of the covered population in managed care in these States. Eligibles only enrolled in managed care are included in the total persons served but not by type of service.

NOTES: Beginning fiscal year 1998, a Medicaid-eligible person who, during the year, received only coverage for managed care benefits was included for the first time in this series as a person served (beneficiary).

SOURCES: Centers for Medicare & Medicaid Services, Center for Medicaid and State Operations: Medicaid Statistical Information System (MSIS); data development by the Office of Research, Development, and Information.
