¹Represents total expenditures aggregated on an incurred basis. Because of differences in methodology, definition, and completeness, the total Medicare Physician and Clinical Services are somewhat higher than the corresponding Medicare program payments for Physician and Clinical Services shown elsewhere in this publication. PHCE excludes health expenditures for construction, program administration, government, public health activities, and research.

²Excludes expenditures for supplier services; includes expenditures for group practice prepayment plans and independent laboratories.

NOTES: Numbers may not add to totals because of rounding. Expenditures are in current dollars. National Health Expenditures data files and category definitions are found at <http://www.cms.hhs.gov/NationalHealthExpendData/02_NationalHealthAccountsHistorical.asp#TopOfPage>.
