¹Average fills are based on a 30-day equivalent.

²Includes certain groups of Medicare beneficiaries who are automatically deemed eligible for the low-income subsidy and do not have to apply. The following groups are deemed eligible: Full-benefit dual eligibles, that is, persons eligible for both Medicare and full Medicaid benefits; Supplemental Security Income (SSI) recipients, including SSI recipients who do not qualify for Medicaid, and individuals deemed to be SSI recipients; and Medicare beneficiaries who are participants in the Medicare Savings Programs (MSP).

³Generic drugs are identified using the Food and Drug Administration's NSDE Marketing Category.

⁴Unique drug product based on distinct count of generic name.

NOTES: Enrollee counts are determined using a person-year methodology that accounts for the number of months a beneficiary is enrolled in the calendar year. Utilizer counts are determined based on beneficiaries with at least 1 Part D prescription drug fill in the calendar year. Utilizer counts are not adjusted based on the number of months a beneficiary is enrolled.
